## ABOUT

I'm organized and detail-oriented (Hey! I'm a designer first and foremost!), able to prioritize tasks effectively to ensure timely project completion, and can independently create and accomplish tasks with minimal oversight. I have experience working in fast-paced environments with constantly changing deadlines. On the personal side, I'm a huge soccer fan and I followed the US national team through Brazil for the 2014 World Cup. I enjoy indie rock and alt country, and try to attend as many live concerts as possible. My weakness? A good screenprint. They litter my walls!
